GeoPort: Maximum Number Of Simultaneous Addresses (4/94)

Article Created: 11 April 1994

TOPIC -----

I have a customer who wants to know maximum number of addresses he can send the same fax to simultaneously using the GeoPort for Power Macintosh (version 1.0) software.

DISCUSSION -----

Previous testing allowed up to 145 recipients in the Send To field. According to the engineering team there is no limit to the number of recipients for a fax. Since the Fax software for GeoPort is the same as the PowerBook Fax software, this applies to the PowerBook family as well.
