Express Modem 1.5.4 Posting Read Me (9/94)

```
Article Created: 30 September 1994

TOPIC -------------------------------------------------------

This article is the Express Modem 1.5.4 posting Read Me file.

DISCUSSION --------------------------------------------------

Name:               Express Modem
Version:            1.5.4
Date Released:      September 29, 1994
Description:        Provides System 7.5 compatibility, replaces all earlier
                    versions of the Express Modem software.
Who should use it:  See Read Me information below.

The enclosed file is a self-extracting archive of a Disk Copy 1440K disk image.
To use, download, double-click the downloaded file (this decompresses it), and
use Disk Copy to create a disk.

Disk Copy can be found in the Utilities folder posted here.

Please Note:
```

• Express Modem 1.5.4 includes a "Fax Terminal 7.5 compatibility"
  extension which corrects a problem discovered using System 7.5 with
  earlier versions of the Express Modem software where unsent faxes could
  cause a crash at startup.

• Power Macintosh customers using an external GeoPort Telecom Adapter
  should use GeoPort For Power Macintosh software (not Express Modem
  1.5.4).

• Macintosh 660AV/840AV customers using an external GeoPort Telecom
  Adapter should use GeoPort for 660AV/840AV software (not Express Modem
  1.5.4).

• The Express Modem II Card is only available outside of the U.S.

Read Me for Express Modem

This Express Modem software can be run on the following machines with their
respective modem cards:

• PowerBook 160, 165, 165c, 180, 180c using an internal Apple PowerBook
  14.4 Modem Card.

• PowerBook Duo 210, 230, 250, 270c, 280, 280c using an internal Apple
  PowerBook Duo 14.4 Modem.

• PowerBook 520, 520c, 540, 540c using an internal Apple PowerBook Express
  Modem II Card.

• LC 575, Macintosh 630 using an internal Macintosh Express Fax/Modem.

• The Express Fax software also allows you to send faxes with PowerBook
  models 100, 140, 145, 150 and 170 when used with the Apple PowerBook
  Fax/Data Modem.

WARNINGS:

• Preferred CCL scripts for AppleTalk Remote Access:
  - ARA 1.0: "Express Modem 14400"
  - ARA 2.0: "Express Modem ARA 2.0" (in "Modem Documents" folder in
             installer disk)

• Fax V.17 (High Speed) reception:
  Some fax machines may not work well with the high-speed (V.17) fax
  capabilities of Express Modem. If you find you are having problems

sending or receiving a fax, try turning off the V.17 option in the Fax
  Terminal Preferences dialog.
