## Express Modem 2.3: Recommended With System 7.5 (1/96)

Article Created: 12 December 1994

Article Reviewed/Updated: 5 January 1996

TOPIC -----

This article describes the recommended version of Express Modem software to use with System 7.5.

DISCUSSION -----

Express Modem software version 1.5 was the first version supported on computers running System 7.5.

Apple released Apple Telecom software v2.3 during the summer of 1995 which includes all the latest versions of extensions and communications software to use with all Apple PowerBook Express Modems, all Apple Comm Slot Express Modems, and Apple GeoPort Telecom Adaptors.

The Apple Telecom 2.3 software package installer automatically places the correct software on your hard drive for your computer's configuration. Apple Telecom 2.3 is available on online services.
