Network Server 500 & 700: Using a One Button Mouse (2/96)

Article Created: 16 February 1996

Article Reviewed/Updated: 26 February 1996

TOPIC -----

This article describes how to obtain three button mouse functionality with a one button mouse.

DISCUSSION -----

The mouse most commonly used with AIX has three buttons. If you are using a one-button mouse, you can use the arrow keys on the keyboard for the middle and right mouse buttons, as follows:

- If you need to use the right mouse button, press the Right Arrow key.
- If you need to use the middle mouse button, press the Left Arrow key.
