TOPS: Using with IBM's MicroChannel

This article last reviewed: 12 December 1989

TOPIC --

I would like to connect my Macintosh systems and IBM PS/2 series machines to
LocalTalk (with TOPS).

The trouble is that the PS/2 Model 70 uses the MicroChannel bus and I can't
find any cards for it. What should I do?

DISCUSSION ---

Daystar Digital sells a MicroChannel LocalTalk card that works with TOPS.
