Article Last Updated:

TOPIC ------------------------------------------------------------

Is there any way to access PacerLink terminal services on a VAX from a PC
connected on a Token Ring Network?  I am running:

PacerLink PC        5.3
PacerShare VMS      5.5
DOS Version         3.31

DISCUSSION -------------------------------------------------------

PacerLink does not support terminal services to a VAX over Token Ring.
Pacer Software told us that they are considering this option some time in
the far future; you won't see the implementation in the next release.
