## Where Do I Find PC/TCP Software (6/95)

Article Created: 27 September 1993

Article Reviewed/Updated: 29 June 1995

TOPIC -----

Where do I get PC/TCP which is an equivalent of MacTCP for PCs? I'm involved in an evaluation of the Farallon PhoneNet PC/Timbuktu products, and I need access to TCP/IP.

DISCUSSION -----

PC/TCP can be obtained from FTP Software of Wakefield, Massachusetts. The latest version is 2.2 and requires DOS 3.3 or later, 640K, hard disk and a network card. To locate a vendor's address and phone number, use the vendor name as a search string.
