PowerTalk: Personal Catalog Limits (11/94)

Article Created: 10 November 1994

TOPIC -----

What is the maximum limit for PowerTalk personal catalogs? I have found that if more than 114 items are created in a PowerTalk personal catalog, strange things start to happen. I cannot print the list, sorting often doesn't work and a variety of error messages pop up from time to time.

What is the best way to get around this limitation?

DISCUSSION -----

PowerTalk was designed to support 99 entries in each Personal Catalog. If the customer needs more than 99 items, they can simply create additional Personal Catalogs as needed.
