PowerShare 1.1 & 1.0 Servers Compatibility (10/95)

```
Article Created: 13 October 1995

TOPIC -----------------------------------------------------------

Are PowerShare 1.1 servers and PowerShare 1.0 servers compatible?

DISCUSSION ------------------------------------------------------

PowerShare 1.0 and 1.1 servers work together seamlessly. It is possible to
combine both revisions of the server software in the same PowerShare system.
This makes upgrading significantly easier since not all servers need to be
upgraded simultaneously.
