LaserWriters: Driver Availability for Windows NT 4.0 (2/97)

Article Created: 14 October 1996
Article Reviewed/Updated: 24 February 1997

TOPIC ---

Are there any Apple LaserWriter printer drivers available for Windows NT 4.0?

DISCUSSION --

The drivers in the following list are included in Windows NT 4.0 and are
supported by Microsoft.

Color LaserWriter 12/600 PS
LaserWriter 12/640 PS
LaserWriter 16/600 PS
LaserWriter Pro 810
LaserWriter Pro 630
LaserWriter Pro 600
LaserWriter Select 360
LaserWriter IIf
LaserWriter IIg
LaserWriter IInt
LaserWriter IIntx
LaserWriter IIntx-J
Personal LaserWriter NT
Personal LaserWriter NTR
LaserWriter Plus
LaserWriter

Apple currently does not provide any printer drivers for Windows NT 4.0. Apple
does provide Windows NT 3.5 and 3.51 printer drivers for the following
printers:

Color LaserWriter 12/600 PS
Color LaserWriter 12/660 PS
LaserWriter 12/640 PS
LaserWriter 16/600 PS

These drivers were tested under Windows NT 3.5 and 3.51 but were not tested
under Windows NT 4.0. For Windows NT 4.0, use the drivers supplied by
Microsoft.

Microsoft wrote the AppleTalk stack for Windows NT, and they support network printing to these printers (not Apple). Apple does support parallel printing on Windows NT.

For more information about driver availability under Windows NT 3.5 or 3.51, please refer to the Tech Info Library article titled, "LaserWriters: Driver Availability for Windows NT 3.5.1."

This article appeared in the 14 October 1996 issue of the Information Alley.

Article Change History:
24 Feb 1997 - Added Color LaserWriter 12/660 PS.
