## Connectix: No Longer Sells Mac II PMMU (7/93)

Article Created: 15 July 1993

TOPIC -----

Does Connectix still sell a PMMU coprocessor for use in the Macintosh II?

DISCUSSION -----

In the Macintosh Memory Guide from Connectix, the MC73 PMMU chip from Motorola is offered for sale through Connectix. Connectix no longer has the MC73 PMMU chip in stock.

Sonnet Technologies Inc. does have a large stock of PMMU chips available. To locate a vendor's address and phone numbers, use the vendor's name as a search string.
