Macintosh Quadra 700 Upgrade: Serial Number

Article Created: 8 May 1992

Article Last Reviewed:

Article Last Updated:

TOPIC -----

When I upgrade a Macintosh IIcx or Macintosh IIci to a Macintosh Quadra 700, do I get a new serial number? It isn't possible to remove the old serial number tag from the Macintosh IIcx or Macintosh IIci.

DISCUSSION -----

The Macintosh Quadra 700 Logic Board Upgrade (M5950LL/A) doesn't come with, nor does it require a new serial number. You continue to use the serial number from the upgraded Macintosh IIcx or Macintosh IIci. If you want the serial number on the new case, you can etch it on.
