Macintosh 630 Family: Processor Upgrade & Video/TV System (6/95)

Article Created: 14 June 1995

TOPIC -----

Can I use both the Apple Video/TV System and the PowerPC upgrade (Macintosh Processor Upgrade) in my Macintosh 630 series computer?

DISCUSSION -----

Yes, all of the Macintosh 630 family of computers will accept both the Apple TV/Video System and the Macintosh Processor Upgrade. However, the Macintosh LC 630 DOS Compatible computer will accept the Apple Video/TV System, but not the Macintosh Processor Upgrade.

The following computers are in the Macintosh 630 family: Performa 630, Performa 635, Performa 636, Performa 637, Performa 638, LC 630, and Quadra 630.
