## Centris 650: No FPU Upgrade from Apple (7/94)

Article Created: 1 March 1993

Article Reviewed/Updated: 28 July 1994

TOPIC -----

Has Apple announced an FPU upgrade for the Centris 650?

The information in this article relative to the Centris 650 is also relevant to the Quadra 650.

DISCUSSION -----

A Centris 650 can be ordered with an FPU at the time of purchase, but Apple is offering no post-sale upgrade.

All configurations, except for the 4/80 configuration (M1276), ship with the 68RC040, which has the FPU on-board. Customers who purchase the 4/80 configuration (M1276), then decide to upgrade, must rely on other vendors for an FPU upgrade.

Article Change History:

28 Jul 1994 - Added reference to Quadra 650 to aid in searching.

12 Aug 1993 - Clarified which model configuration this applies to.
