## Centris and Quadra Computers: Internal CD-ROMs (1/95)

Article Created: 9 February 1993

Article Reviewed/Updated: 4 January 1995

TOPIC -----

Can you install an internal CD-ROM drive in a Macintosh Centris or Macintosh Quadra computer?

DISCUSSION -----

All Macintosh Quadra and Centris computers, except Quadra 605 and Quadra 700 computers, have space for an internal CD-ROM drive or other 5.25-inch full-height device.

Although various configurations of Centris and Quadra computers are available with the AppleCD 300i factory-installed, Apple offers several AppleCD 300i upgrade kits:

| Product Number: | Description:                                |
|-----------------|---|
| B1332LL/A       | AppleCD 300i Drive Kit, Centris 610 & 660AV |
| B1329LL/A       | AppleCD 300i Drive Kit, Centris 650         |
| B1328LL/A       | AppleCD 300i Drive Kit, Quadra 900 & 950    |
| B1330LL/A       | AppleCD 300i Drive Kit, Quadra 800 & 840AV  |

### Article Change History:

04 Jan 1995 - Added, except Quadra 605 and 700 computers.

18 Aug 1993 - Revised and retitled to include all Centris and Quadra computers and accompanying AppleCD 300i kit information.
