Centris 610 & 650, Quadra 800: Use Compatibility Checker 2.0

Article Created: 18 February 1993

TOPIC ---

Is there a compatibility document for the 68040-based Macintosh systems
introduced in February 1993?

DISCUSSION --

There is no such document available for the Centris 610 and 650 or the
Quadra 800.

The basis for compatibility should be the Compatibility Checker 2.0 (for
System 7.1 compatibility), and the Quadra 700/900/950 Compatibility List.
