## Macintosh Classic: Video Adjustment Screws

Article Created: 18 April 1991

Article Last Reviewed: 17 June 1992

Article Last Updated:

### TOPIC -----

On the back of the Classic, there is a cover over several adjustment screws. What do these adjust?

### DISCUSSION -----

These adjustment screws are for video adjustments. You can adjust the horizontal and vertical size and shift, along with the brightness, cutoff, and focus.
