## Color Classic: No Upgrade from Classic or Classic II (2/93)

Article Created: 9 February 1993

TOPIC -----

I have a Macintosh Classic. Can I upgrade it to a Macintosh Color Classic?

DISCUSSION -----

No. The Color Classic's new color display and expansion slot would not fit into the case of a Macintosh Classic or Classic II. Even if the components would fit, such an upgrade would involve replacing virtually every component of your Classic computer, and wouldn't be cost-effective. Copyright 1993, Apple Computer, Inc.
