## Macintosh IIVx/Centris/Quadra 650: Logic Board Upgrade (8/94)

Article Created: 19 October 1992

Article Reviewed/Updated: 13 July 1993

TOPIC -----

What logic board upgrade options are available for the Macintosh IIVx, Centris 650, or Quadra 650?

DISCUSSION -----

Wherever possible, Apple has given customers the opportunity to upgrade to a newer logic board. Apple has made available a logic board to upgrade a Macintosh IIVx, Performa 600, or Quadra/Centris 650 to a Power Macintosh 7100/66 or 7100/66AV model.

The part number for the 7100/66 is M2474LL/A. The part number for the 7100/66AV model is M2840LL/A.

For details about this upgrade contact your local Apple authorized dealer.

Article Change History:

05 Aug 1994 - Revised to show upgrade to Power Macintosh 7100/66.

13 Jul 1993 - Revised to add available upgrade path to Centris 650.
