Macintosh Portable: Number of Times Battery can be Discharged

Article Created: 14 May 1991

Article Last Reviewed: 30 July 1992

Article Last Updated:

TOPIC -----

How many times can a Macintosh Portable's battery be completely discharged before it no longer holds a charge?

DISCUSSION -----

Just one complete discharge of the Macintosh Portable's lead acid battery can damage the battery's cells to the point where it could no longer hold a charge.
