Express Modem: Fax Queue & Phone Number Limits (3/94)

```
Article Created: 23 March 1994

TOPIC -----------------------------------------------------------

How many fax documents can be placed in a queue, and how many addresses can be
added to the phone number data base for the Express Modem software?

DISCUSSION ------------------------------------------------------

There is no actual limit to the number of faxes you can have in the queue. You
will be limited by hard drive space, and memory allocation. In testing  we were
able to get up to 145 recipients in the Send To without any problem.

The address book will hold up to 1000 addresses.
