PowerBook 170: How To Switch Processing Speed to 16 MHz 8/92

Article Created: 12 December 1991

Article Reviewed/Updated: 3 August 1992

TOPIC -----

Can you switch the processing speed of the Macintosh PowerBook 170?

DISCUSSION -----

Yes. The Battery DA has a handle similar to the Alarm Clock DA that activates a power-saving mode dialog box. Select the Power Saver mode, and restart the system to slow down the processor to 16 MHz.
