## PowerBook Duo 270c and 280c: Sleep Indicator (2/95)

Article Created: 21 October 1993

Article Reviewed/Updated: 02 February 1995

TOPIC -----

This article discusses the sleep indicator of the PowerBook Duo 270c and Duo 280c.

DISCUSSION -----

The PowerBook Duo 270c and 280c has a light-emitting diode (LED) in the upper-right side of its display to indicate whether the unit is in sleep mode. This LED, called the sleep indicator, flashes when the Duo computer is asleep. The sleep indicator is visible whether the display is open or closed.

Article Change History:
