PowerBook: What Causes Duplicate Faxes (11/92)

Article Created: 27 October 1992

TOPIC -----

The FaxSender software I got with my PowerBook keeps resending the same group of faxes.

DISCUSSION -----

If you put a queue of faxes in, and one of those numbers is unreachable, the FaxSender software will send the fax to the whole queue each time it retries the number that can't be reached. This seems to occur when you have four fax machines in queue.
