Video Mirroring: Ways to Maximize Performance (8/94)

Article Created: 18 August 1994

TOPIC -----

I intend to use my PowerBook and Video Mirroring for presentations. What steps can I take to improve performance?

DISCUSSION -----

Here are some suggestions to maximize Video Mirroring performance:

- keep color settings to the minimum bit depth actually needed
- keep use of animated transition effects to a minimum
- minimize use of complicated graphics
- minimize number of individual graphics per slide
- turn off virtual memory during presentations
- disable extensions that are not required for the presentation
