PowerBook & PowerBook Accessories: Serial Number Locations(11/95)

Article Created: 29 November 1995

TOPIC -----

This article describes where serial numbers are located on various PowerBook computers and PowerBook accessories. The serial number is printed underneath a barcoded number and is normally 10 or 11 digits.

DISCUSSION -----

On the Back of the Computer Under the Ports

The serial numbers for the following PowerBook computers are located on the back of the unit where the ports are found. There is a small I/O door on the back that must be opened in order to gain access to this area of the computer.

- Most PowerBook 100 Series (140, 145, 145b, 160, 165c, 170, 180, 180c)
- PowerBook 500 Series

On the Bottom of the Computer

The serial numbers for the following PowerBooks are located on the bottom of the unit in the center.

- PowerBook 100, 150
- PowerBook Duo Series (210, 230, 250, 270c, 280, 280c, 2300c)*
- PowerBook 190 Series (190, 190cs)
- PowerBook 5300 Series (5300/100, 5300cs/100, 5300c/100, 5300ce/117)

Other Serial Number Locations

Other Portable units and accessories:

- Macintosh Portable: Orient the Macintosh Portable computer so it is standing vertically on its back (where the ports are located). The serial number is on the bottom of the machine, in the upper right corner.

- Mini Dock, Duo Floppy Drive, Battery charger, Duo Floppy Adapter: The serial number is located on the bottom in the center.
- Duo Dock, Duo Dock II, Duo Dock Plus: The serial number is located on the back (where the ports are located) in the center.

* Note: the serial numbers for PowerBook 200 series computers (Duos) are not visible while they are attached to a docking device or accessory.
