Quadra 840AV: Large QuickTime Movies Freeze (7/94)

Article Created: 5 July 1994

TOPIC ---

I am having problems playing large QuickTime movies on my Quadra 840AV. Within
30 seconds, the movie freezes. I can play the movie from an external drive the
movie plays without any problem.

DISCUSSION --

The internal hard disk driver needs to be updated. If you use HDSC Setup 7.3.1
which comes with System Update 3.0, you can correct this problem.

While you don't have to install System Update 3.0 to eliminate the problem, it
is recommended that you install the update and update the hard disk driver.
