Macintosh Quadra: AppleTalk Phase II Only (10/91)

Article Created: 31 October 1991
Article Reviewed/Updated: 29 November 1994

TOPIC --

I tested a Macintosh Quadra 900 on an AppleTalk Phase 1 network. When I
selected the Phase 1 icon under the network icon, I got the message "an error
has occurred using LocalTalk."

Is AppleTalk Phase 1 not supported on the Quadra on-board Ethernet?

DISCUSSION ---

Ethernet on all Macintosh Quadra computers is Phase II only.
