## Performa 550: Screen Turns Off (11/93)

Article Created: 10 November 1993

TOPIC-----

Performa retailers are reporting that the Performa 550 screen will turn off while running the In-Store demo.

DISCUSSION-----

The Performa 550 is Energy Star compliant, which turns off the screen after a few minutes. For example, if you choose 15 minutes, the screen will darken after the computer has been inactive for 15 minutes.

Workaround: Turn off the energy saving features by:

- Choosing the Control Panels from the Apple Menu.
- Open the Screen control panel.
- Turn off the Screen Power Saver.
