SIMM Stack: Description (10/94)

Article Created: 23 August 1994
Article Reviewed/Updated: 10 October 1994

TOPIC ---

This article provides a brief description of the SIMM Stack.

DISCUSSION --

The SIMM Stack is a HyperCard based stack that contains visual and text based
information relating to memory upgrade requirements, specifications, and
capabilities of Apple Macintosh computers and applicable LaserWriter printers.

The stack is updated at major product introductions. These articles can help you
locate the SIMM Stack:

-   Where To Find Apple Software Updates
    Lists online services for "free" Apple software updates

-   Obtaining Apple Product Support in the USA
    Lists 800 numbers and online services for software updates, Apple
    support information, and a subset of the Apple Tech. Info. Library

Article Change History:
10 October 1994 - Added keyword and new parent folder

Support Information Services
