Macintosh 630 family: Radius Products Compatibility (4/95)

Article Created: 04 April 1995

TOPIC ---

I have just purchased a Performa 630 CD and would like to have the option of
connecting a Radius Full Page Display GS display Model #0632 to it.

Is this possible? If so, what cable(s) are required?

DISCUSSION --

As of this writing, Radius technical support has stated that no Radius products
are compatible with the Macintosh 630 family.

The following computers are in the Macintosh 630 family: Performa 630, Performa
635, Performa 636, Performa 637, Performa 638, LC 630, and Quadra 630.
