Apple Personal Diagnostics in the Background (3/94)

Article Created: 14 March 1994

TOPIC ---

This article discusses what effect putting Apple Personal Diagnostics in the background has.

DISCUSSION --

Some applications (including disk protection/security utilities) can be preset to launch automatically. When APD is moved to the background, either by you or by an application that has launched automatically, any Diagnostic Test or Benchmark Check that was running at the time of the move will be stopped.
