TOPIC ---

This article describes how to install At Ease 2.0 for Workgroups over an
AppleTalk network.

DISCUSSION --

If there are several computers on your network that will be using At Ease 2.0
for Workgroups, it is probably easiest to install the application over the
network.

At the Administrator's Macintosh
================================

First, you must install At Ease 2.0 for Workgroups on a server. Working from
the administrator's Macintosh:

Step 1

Choose New Folder from the File menu.

Step 2

Name the folder At Ease 2.0 (WG) Net Install.

Step 3

Insert the At Ease 2.0 (WG) Install 1 disk into the floppy disk drive.

Step 4

Drag the At Ease 2.0 (WG) Install 1 disk icon to the At Ease 2.0 (WG) Net
Install folder. Eject the disk.

Step 5

Insert the At Ease 2.0 (WG) Install 2 disk. Drag its icon to the Net Install
folder. Eject the disk.

```
Step 6
------
Insert the At Ease 2.0 (WG) Install 3 disk and drag its icon to the Net Install
folder. Eject the disk.

Step 7
------
Open the At Ease 2.0 (WG) Net Install folder.

Step 8
------
Open the At Ease 2.0 (WG) Install 1 folder.

Step 9
------
Select the Installer icon and drag it out of the At Ease 2.0 (WG) Install 1
folder into the At Ease 2.0 (WG) Net Install window.

Step 10
-------
Select the Install At Ease icon and drag it to the At Ease 2.0 (WG) Net Install
window.

At Each Workstation
===================

Follow these steps for each computer on the network that will be using At Ease:

Step 1
------
Turn on the computer.

Step 2
------
Connect to the file server that has At Ease 2.0 for Workgroups on it.

Step 3
------
Open the At Ease 2.0 (WG) Net Install folder.

Step 4
------
Double-click the Installer icon. Click OK in the Welcome dialog box that
   appears.

Step 5
------
Click the Install button and follow the directions on the screen.

Step 6
------
Click Restart to restart the computer and make At Ease available.
