Using At Ease 4.0 on a Stand-Alone Computer (9/96)

Article Created: 24 September 1996

TOPIC ---

Can I set up At Ease 4.0 on a stand-alone computer?

DISCUSSION --

No. At Ease 4.0 was designed to be used in conjunction with an AppleShare 3.0 or
later file server. It cannot be configured for use on a stand-alone computer.

Here are some of the requirements:

• At Ease Server System: AppleShare File Server Software 3.0 or later,
  AppleShare 4.0 or later recommended.
• AppleTalk network connection, Ethernet recommended.
