DAL: New XCMDs and XFCNs for HyperCard 2.0

Article Created: 27 February 1991
Article Last Reviewed: 29 June 1992
Article Last Updated:

TOPIC -----

With the advent of HyperCard 2.0, does the DAL toolkit have new XCMDs and XFCNs? If I remember correctly, HyperCard 2.0 has a more powerful XCMD structure. Could the DAL HyperCard toolkit take advantage of these new features?

DISCUSSION -----

According to DAL Technical Support, release 1.2, available from APDA, takes advantage of HyperCard 2.0 features. For more information about what's new and fixed in version 1.2, please read the file Read Me DAL 1.2 on the Install diskette.
