DAL Server for A/UX: Availability (9/94)

Article Created: 18 February 1991

Article Reviewed/Updated: 21 September 1994

TOPIC -----

Is there a version of DAL Server available for A/UX?

DISCUSSION -----

NOTE: As of December 1993, Independence Technologies, Inc. (ITI) took ownership of the DAL technology. Contact ITI for current product information.

Data Access Language (DAL) 1.3 will work with A/UX 2.0 or 2.0.1. Connections can be made via asynch or TCP/IP but not AppleTalk because A/UX 2.0 and A/UX 2.0.1 don't support ADSP. DAL 1.3.6 supports A/UX 3.0 and ADSP is supported to A/UX as of that release.

Oracle, The Ask Group, Inc./Ingres Products, and Sybase have announced a server that runs on an A/UX 2.0 platform.

On AppleLink, you can find contact information on a company mentioned in this article by clicking the "Library Index" button in the lower-center of the Tech Info Library search window, then opening the "Third Party Company Directory" folder.

Article Change History:

21 Sep 1994 - Added info about ITI.

23 Jul 1993 - Company title updated from Ingres to The Ask Group, Inc./Ingres Products
