DAL: Error Message 10632

Article Created: 23 August 1991
Article Last Reviewed: 29 June 1992
Article Last Updated:

TOPIC -----

I am using Oracle 6.029.1, AppleTalk for VMS 3.0, VMS 5.3, and DAL 1.2.
When I issue the command:

```
open oracle DBMS
open oracle db as user xxx pw xxx; go
```

I get an error message "10632".

DISCUSSION -----

This is a generic error message that may be caused by a number of different problems, including:

- DAL logicals not defined.
- DAL subsystem not installed.
- DAL server not found on the VAX.
- AppleTalk for VMS problem.
- INIT conflict on the Macintosh.
