TOPIC ---

Where is the DAL 1.3.5 AVATAR client driver for clients using the Avatar
Gateway (4.01) and MacMainFrame Client software?

DISCUSSION --

You can find the DALnet Avatar 1.3.5 network adapter on the DAL 1.3.5
Install Disk. The path is:

  DAL Install
    DAL Files
      DAL Network Adapters

Note that you need to do a "customized" installation to select support for
3270-type connections such as Avatar MacMainframe.
