DAL: Common F Messages Coming From VTAM DAL Server to a

Article Created: 13 November 1992

TOPIC ---

This article describes the most frequent F Messages coming from a VTAM DAL
server to a client.

DISCUSSION ---

VTAM errors are documented in the VTAM Installation Guide and these errors
never get sent to the client. There are 'F Messages' which can come from
the VTAM server to the client, and the most common are:

```
     F000000001  Terminal I/O Error
     F000000004  Invalid or Missing Userid
     F000000008  Invalid or Missing Password
     F000000012  Password has Expired
     F000000016  New Password is Invalid
     F000000020  User not defined to Group
     F000000024  RACINIT Failed
     F000000028  Access has been Revoked
     F000000032  RACF not Active
     F000000036  Group Access Revoked
     F000000100  Userid in Use
     F000000108  Server Terminated by Cancel
     F000000112  Server terminated by Closedown
```
