*** IMPORTANT ***

Watch out for a Trojan Horse program that was distributed at MacWorld in January 1988. It's called "Sexy Ladies". When you run the program, it puts an abusive message on your screen, then ERASES your hard drive. It was distributed on a floppy named "PD".

To prevent viruses and Trojan Horses from affecting your system, make sure you:

- Know the source of an application before using it.
- Try out any dubious programs on a test system.

For more information, please search on the term VIRUS.
