TOPIC --

What is the policy for distribution of the fonts found in the System Software?
I want to distribute a HyperCard Stack, and he need to install the New York
font in it. I also would like to use other fonts, but need to know if it's
okay to distribute them like this.

DISCUSSION --

If you are going to distribute a HyperCard stack containing any of the
following fonts, you will need to get a license from Apple Software Licensing
to distribute Apple System Software:

Athens	Cairo	Courier
Geneva	Helvetica	London
Los Angeles	Mobile	New York
San Francisco	Symbol	Times
	Venice	

For information on using the fonts distributed with the LaserWriter family of
printers or other information licensing Apple products, contact Apple Software
Licensing at 408-974-4667 or AppleLink address "SW.LICENSE".
