GrayShare Printer Driver: Number of Simultaneous Users (3/93)

Article Created: 18 March 1993

TOPIC -----

How many users can a printer using a GrayShare printer driver have at one time?

DISCUSSION -----

Printers that use the GrayShare printer driver can only have 21 users with open connections to the printer at any one time. Only 21 sockets, or logical connections to the network, are allocated by the GrayShare software for printing.

However, any number of users may choose a printer which uses a GrayShare printer driver as their selected printer.

These printers use the GrayShare printer driver:

- Apple Color Printer
- LaserWriter Select 300
- StyleWriter II
