HyperCard: Problem with Volume Names Containing Quotes (7/92)

Article Created: 28 March 1991
Article Reviewed/Updated: 23 July 1992

TOPIC ---

Problem: You get a "No Such Menu" error whenever you open a particular
stack.

DISCUSSION --

We have documented a case where the WrongStack() function returned True
instead of False, and the line "get word 2 of the long name of me" in the
WrongStack function returned nothing. This happened because the customer's
hard drive was named "Q" (including the quotes). The quotes in the name
apparently caused HyperCard to see the long name as all one word so there
was no word 2.
