HyperCard: Script to Move an Object to the Background (7/92)

Article Created: 16 January 1991
Article Reviewed/Updated: 23 July 1992

TOPIC ---

The moveToBkgnd handler asks you what object you want moved to the
background. If the object moved is a field, then its text goes with it.

DISCUSSION --

```
on moveToBkgnd
  put "Click on the object to move to the background..."
  wait until the mouseClick
  put empty
  put hitTest(the clickLoc) into object
  if "card button" is not in object and "card field" is not in object
  then exit moveToBkgnd
  select object
  type "x" with commandKey
  set editBkgnd to true
  type "v" with shiftKey,commandKey -- paste text too
  choose browse tool
end moveToBkgnd
```
