HyperCard: Handler for Selecting Backgrounds (7/92)

Article Created: 11 January 1991
Article Reviewed/Updated: 23 July 1992

TOPIC ---

This handler adds the current background to the list of selected
backgrounds. After you've selected a group of backgrounds, you can perform
operations on all of them using doToSelectedBkgnds.

DISCUSSION --

```
on selectBkgnd clearSelectionFlag
  -- Group selection of backgrounds.
  -- This handler adds the current background to the
  -- currently selected backgrounds or clears the list
  -- of currently selected bkgnds:

  -- selectBkgnd clear -- any non-empty parameter clears
  --      previous selection
  -- selectBkgnd -- adds current bkgnd to the list of
  --      selected bkgnds

  global selectedBkgnds
  if clearSelectionFlag is not empty
  then put empty into selectedBkgnds
  else -- get around bug in long id of bkgnd
    get "bkgnd id " & id of this bkgnd & " of " & name of this stack
    put it & return after selectedBkgnds
  end if
end selectBkgnd
```
