HyperCard: Converting 12-Hour Time to 24-Hour (7/92)

Article Created: 19 November 1991

Article Reviewed/Updated: 23 July 1992

TOPIC -----

This article provides a script that converts 12-hour time to international 24-hour time:

DISCUSSION -----

```
on mouseUp
  put msg box into q
  if last word of q = "PM" then
    repeat with n=1 to (the number of chars of q)
      if char n of q = ":" then put "," into char n of q
    end repeat
    put item 1 of q into z
    put z+12 into z
    put z into item 1 of q
    repeat with n=1 to (the number of chars of q)
      if char n of q = "," then put ":" into char n of q
    end repeat
  end if
  put "" into last word of q
  put q into msg box
end mouseUp
```
