TOPIC -----

I have created a stack of 200 cards with HyperCard version 1.2.5. I want to print out cards 1, 5, 10, 15, and 20 without printing the whole stack. What script would do this?

DISCUSSION -----

In a button, put the following script:

```
on mouseUp
  set lockscreen to TRUE
  put the short name of this card into ThisCard
  go to card 1
  doMenu "Print Card"
  go to card 5
  doMenu "Print Card"
  go to card 10
  doMenu "Print Card"
  go to card 15
  doMenu "Print Card"
  go to card 20
  doMenu "Print Card"
  go to card ThisCard
end mouseUp
```
