HyperCard 1.x: Protect Stack Manual Correction (7/92)

Article Created: 29 January 1991

Article Reviewed/Updated: 23 July 1992

TOPIC -----

This article corrects a small error in an early version of the HyperCard Reference Manual.

DISCUSSION -----

Page 120 says that if you check the "Can't Abort" check box in the "Protect Stack" dialog box that it will remain in effect "only until you leave the stack."

This is incorrect. The "Can't Abort" property will stay on even if you leave the stack.
