HyperCard 2.0: 32K Limit for Scripts and Fields

Article Created: 25 June 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

I know there was a 32K limit to the number of characters in a HyperCard script. Is this still true in HyperCard 2.0?

DISCUSSION -----

Yes, the limit remains 32K for the number of characters you can have in a HyperCard script or field. This limit does not apply to variables.
