HyperCard 2.0: How to Change Address Book's Font Size

Article Created: 13 August 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Is there any way to increase the font size of the mailing labels that HyperCard prints from the Address Book? The default point size for the labels is very small.

DISCUSSION -----

To do this, you need HyperCard 2.0, which lets a text field contain multiple fonts, styles, and sizes.

- 1) Select the text you want to change.
- 2) Either choose "Text Style..." from the Edit menu, or make a choice from the Font or Style menu.

You can also use HyperTalk to find or set the attributes of any range of characters.
